The IICS-AZ is a University of Arizona project designed to inform the University and the Tucson communities of recent evidence-based research and teaching on the potential value of Cannabis in horticulture and in human and veterinary medicine.

Founding Organizer: Raphael Gruener, PhD | Professor Emeritus | rgruener@email.arizona.edu

Program

08:00 Welcome
08:30 Todd Vanderah
The Endocannabinoid System: The Biological Foundation of It All
09:30 Natalie D Eddington
Journey to an MS in Medical Cannabis
10:30 Break
On your own in the Cafeteria
11:00 Thomas Marcotte
The Promise & Challenges of Cannabis and Cannabinoids as Medicine
12:00 Yu-Fung Lin
Teaching the Human Physiology of Cannabis and Cannabinoids
13:00 LUNCH
On your own in the Cafeteria
14:00 Richard Huntsman
Pediatric Epilepsy: Novel Cannabinoid-Based Treatment
15:00 Suman Chandra
Botany, Chemistry, Potency and Drug Development
16:00 David Meiri
Medical Cannabis: Evidence-Based Research Findings

Speakers

Todd Vanderah, PhD
Professor of Pharmacology & Neurology
University of Arizona College of Medicine – Tucson
https://pharmacology.arizona.edu/person/todd-vanderah-phd

Suman Chandra, PhD
Sr Research Scientist
School of Pharmacy
NIDA Center for Natural Products Research
University of Mississippi
home.olemiss.edu/~suman

Thomas Marcotte, PhD
Professor, Psychiatry
UCSD Center for Medicinal Cannabis Research
https://profiles.ucsd.edu/thomas.marcotte

Yu-Fung Lin, PhD
Associate Professor Department of Physiology
UC Davis

Richard Huntsman, MD
Professor, Pediatric Neurology
Univ Saskatchewan Coll Medicine
https://medicine.usask.ca/profiles/pediatric-divisions/neurology/richard-huntsman.php

Natalie D Eddington, PhD
Dean, University Maryland School of Pharmacy
https://www.umaryland.edu/about-umb/university-leadership/deans/-natalie-d-eddington-phd-faaps

David Meiri, PhD
Professor, The Laboratory of Cancer Biology
The Technion Israel
https://dmeiri.net.technion.ac.il
